**ORAL ARGUMENT
REQUESTED BY APPELLANTS'
ON PETITION FOR WRIT OF
MANDAMUS**

ORAL ARGUMENT REQUESTED

To 3rd Circuit Judge:

Pursuant to Local Rules, Appellants, hereby respectfully request oral argument on their motions. This case raise novel questions of law regarding application of Federal legislation against fundamental constitutional right to trial, right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, and due process violations. Given the importance of these questions to the determination of this case and the complexity of this area of law, Appellants believe that the Court's decision-making process would be significantly aided by oral argument.

Plaintiffs estimate one hour will be necessary for argument.
